CALL FOR CONFERENCE

The Association of Hungarian PhD and DLA Students (DOSZ) is overjoyed at organizing the regular annual conference in 2019. DOSZ is holding a multidisciplinary scientific conference labelled as the SPRING WIND Conference again in this year.

SPRING WIND will be held 3-5 May 2019 and the University of Debrecen will serve as the host institution of the event.

The Spring Wind Conference which is called also the "World Meeting of Young Hungarian Researchers and PhD Students" and the working language of **the programme** will be Hungarian and English as in the previous years.

We are pleased to invite the representatives of higher education institutions, government and business people, colleagues and experts who are interested in the topics. All of the scientific areas and their disciplines can be represented in the frame of the sections during the three-day event. The conference can give the green light to the theoretical and practical utilization of these research fields and disciplines.

Please indicate your intention with filling in the online registration form. (http://www.dosz.hu/rendezvenyek/tavaszi_szel_konferencia) Applicants should give their contact due to easier communication during the registration procedure. We take the responsibility of handling your personal information confidentially.

The final step of the registration will be realized by uploading the abstract. It is crucial that uploaded personal and bank account information can be modified later on.

**DEBRECENI
EGYETEM**

As part of the registration, you should submit an abstract with a minimum of 1,800 characters and a maximum of 3600 characters (including spaces), which suits the formal requirements on the website. The abstract can be submitted either in English or Hungarian on the registration surface although the language of the abstract should be in accordance with the language of the future presentation. (otherwise the committee cannot accept the abstract)

Furthermore, the application will only be valid with the uploaded abstract. One needs to take note of the fact that the abstract must be submitted under the name which is clearly identifiable. (eg: Aron_Smith_TitleOfTheAbstract)

Application deadline: 10 March, 2019 (Sunday)

All abstracts will be put through a proofreading process by the relevant Scientific Department of DOSZ.

Applicants will be notified by March 25, 2019 after the peer-review procedure.

Please note that we will not be able to accept the application if the abstract does not meet the basic requirements of the scientific discipline or if the number of candidates reaches the limit of the Conference. It is highly important that there will be no right to appeal due to the negative response of the scientific department. One can get in touch with the relevant Scientific Departments for detailed information in case of rejection.

One can find the contacts of the Scientific Departments on the website. There is no chance for supplying a deficiency after the deadline (10 March, 2019)

The last step of the registration process is the payment of the participation fee until the deadline specified below. You should pay the participation fee after you will be

**DEBRECENI
EGYETEM**

notified of the acceptance of the abstract by the committee. Please keep in your mind that we will not be able to refund the paid participation fees.

Please note that we can not accept the application without paying the participation fee.

If the author intends to publish his / her research in the conference volume, one have to upload a scientific article -that meets the formal requirements- by 16 June 2019 (the latest deadline) via the registration platform.

The study can be accepted if the candidate encloses a signed expertise written by a the lecturer: a qualified scientist with a degree (PhD, DLA) corresponding to his or her research area. An additional condition that the applicant must upload a filled out copyright statement with signature. Please make sure that you will submit the lecturer's review and author's statement under a name which is clearly identifiable (eg: Aron_Smith_LecturersExpertise, Aron_Smith_Statement).

We can only accept documents in the form prescribed by DOSZ (downloadable) in consideration of the scientific article, the lecturer's expertise and the copyright statement. Any other or incomplete studies - which do not meet the formal requirements - will not be published in the conference volume by the Organizing Committee.

Accepted, verified studies will be published in an online edition of the conference volume, with an ISBN number and with the name of the (reviewing) lecturers.

The formal requirements for the abstracts and the studies are announced with our present invitation. (Lecturer's expertise, letter of invitation and copyright forms are also available on the website.)

It is inevitable to highlight that DOSZ can only publish the study of a participant who will present his/her research at the conference.

**DEBRECENI
EGYETEM**

We would like to offer participative opportunity for the representatives from all the disciplines and research fields due to the multidisciplinary nature of the conference. The Organizing Committee will make the decision about the maximum number of participants for the sections based on the registration data.

Accepted abstracts will be ranked according to objective criteria by DOSZ's Scientific Departments. The temporal order of the applications will be the determinant factor in the case of the same rank, if the number of the section exceeds the authorized value.

Scheduled sections of the conference:

- Agricultural Science
- State and Law
- Biology
- Philosophy Science
- Physics
- Earth Science
- Military Sciences
- Theology
- Literature
- Chemical and Environmental Sciences
- Communication Science
- Economics
- Public administration
- Mathematics and Informatics
- Engineering
- Arts

**DEBRECENI
EGYETEM**

- Linguistics
- Medical and Health Sciences
- Psychology and Education Sciences
- Police Sciences
- Sport Science
- Sociological and Multidisciplinary Social Sciences
- History and Political Sciences

The Organizing Committee reserves the right to reconsider the studies between the sections and the committee accept responsibility for aggregating or for distributing individual sections depending on the number of applications.

Important deadlines:

March 10, 2019 (Sunday) Deadline for registration and submission of abstracts.

March 25, 2019 (Monday) Candidates are notified of the evaluation of the abstracts.

May 3-5, 2019 The conference

June 16, 2019 Deadline for uploading the study, the author's statement and the lecturer's expertise.

Participation Fees:

- Full participation fee: 16.000 HUF
(which includes: participation for the whole conference, presentation and publishing, accommodation for 2 nights, full board during the conference, participation in accompanying programs, etc.)
- One-day participation fee: 13.000 HUF
(which includes: one day participation at the conference, presentation and publishing, 1 night stay, three meals, participation in accompanying programs, etc.)
