

V. DOSZFESZT

August 30 – September 1, 2024, Debrecen

We are pleased to inform you that, the Association of Hungarian PhD and DLA Candidates (DOSZ) is organizing its fifth summer closing event in cooperation with the Doctoral Students Union of the University of Debrecen at the imposing central Campus of the University of Debrecen.

Debrecen is the largest city of the Hungarian countryside and the University of Debrecen – being one of the five research universities of Hungary – is the most significant higher education institution of the region. The University offers the widest spectrum of educational programs of the country with its 13 faculties, where 30.000 students continue their studies and nearly 1.300 doctoral students conduct their research in 24 doctoral schools.

Throughout DOSZFESZT the participants will be able to visit local landmarks like the recently renovated attraction of Nagyerdei Park, the Nagyerdei Watertower, which can be visited by the public and offers endless entertainment for those interested from spring to autumn. From the 34 meters high observation point of the still functioning watertower visitors can enjoy the spectacular views of the area and also can get a glimpse of the past with the help of a special telescope. The other spectacle of Debrecen is the Stadium that blends into its natural environment perfectly thanks to the tall, lush trees surrounding the building. The multifunctional facility with its 20.000 seats is suitable not just for holding sports events and training sessions, but also for housing cultural events. In the laboratory that operates here nationally unique sports physiology researches are conducted.

The doctoral students are welcome to join professional and social programs during the event. As can be seen from the participation fees we highly expect the participation of first-year PhD and DLA students.

The professional programs organized by DOSZ will focus on current questions concerning the doctoral education. The purpose of these lectures, workshops and round-table discussions is to prepare the doctoral students for the challenges of the research career ahead of them.

Via the social programs we would like to grant entertainment and networking opportunities for the attendees. Several programmes – building on the almost 500-year-old traditions of the University of Debrecen and the local conditions – will be held which hopefully will make the event unforgettable for the participants.

Attendance fee:

- **Ticket for first-year PhD students:** 19.990 HUF per person – For those who have not started their doctoral studies yet or have a maximum of 2 finished semesters. The attendance fee includes the opportunity to participate for the entire duration of the event, accommodation for 2 nights, full board, participation in the accompanying programs.
- **Full attendance fee excluding accommodation:** 24.990 HUF per person – The attendance fee includes the opportunity to participate for the entire duration of the event, full board, participation in the accompanying programs.
